Wireless Hardwire Takeover Module Enclosure Kit

2GIG-TAKE-ENCL

The **2GIG® Wireless Hardwire Takeover Module and Enclosure Kit (2GIG-TAKE-ENCL)** provides installers with an easy method for taking over a prewired security alarm system and converting the existing hardwired zones to wireless zones. To ensure optimal performance with the 2GIG Control Panel, the kit provides an ABS Plastic enclosure (UL 94: V-0) to protect the kit's components. The enclosure houses up to three (3)

Super Switch Takeover Modules (2GIG-TAKE-345 or or 2GIG-TAKE1E-345) and the Power Supply Board with backup battery charging circuit. It also includes a space for placing a suitable backup battery. TheTakeover Module cannot be used to monitor Carbon Monoxide (CO) or Fire detection zones and is intended for indoor use only. **Please note that 2GIG Takeover module is sold separately.**
